Streaming Prevention Scams

*We need to incorporate methods to prevent “sound farms”. A sound farm is an organized system design to play desired content on demand and continuously without human interaction. Sound farms are created to manipulate sound plays for the purpose of increasing payout profits for certain users. See below features.

- Narrations should not have a repeat button.
- Individuals with no account or individuals who do not sign in can navigate the website and only listen to one narration per day. Individuals without an account should receive a pop up regarding signing up for an account.

Payout Schedule

- All payouts will be paid to users when the user earns a minimum of **\$5** in their PageDuo account.
- Payments will be paid out to users one time per month.
- Payments will be paid out on the 21st of each month.
